

LAUNCHING SOON.....

Find the Right People in a Booming Market Jobs4 Drug Development: www.jobs4dd.com

Pharmaceutical outsourcing, especially clinical research, is growing strongly - by more than 15% last year. With that growth comes a demand for more and more staff to handle the increasing volume of trials. In a business that is driven by people, finding the right person for the job is absolutely vital. It's a task that has never been easy and as the outsourcing business grows, it's getting tougher...

Now there is a new website, about to be launched, designed to help you find the right people easily and quickly. Jobs4 Drug Development - www.jobs4dd.com - is a purpose-built site that, as its name suggests, is dedicated to finding the right Clinical Research, BioPharm and Drug Development staff. Whether you're looking for physicians, CRAs, regulatory staff or senior managers, Jobs4dd is a unique service that is specifically designed to help you.

The site has been developed by the Jobs4 Group and www.jobs4medical.co.uk and Biopharm Knowledge Publishing (part of the Technomark Group) - so it's been built by people who understand your market and the problems that you face.

It lets you advertise the role and select candidates who have applied for vacancies for interviews, all **with just a few clicks of your mouse**. You can have single or multiple advert options,

On top of that, it's **remarkably good value**, costing you far less than specialist magazines and newsletters, while providing a better-targeted and more-complete service. It also provides a full news service with specific coverage of the outsourcing market, the people in the business, products in development and company strategies.

To find out more about this unique service please contact Shirley Scott:
0845 465 0713 or shirley@jobs4dd.com.

We look forward to hearing from you.
